THE CREDIT MANAGERS

Credit Information Services – Protect Your Business

Checking the credit rating of a new potential customer with the abilita Credit information Services is a very useful tool to judge the financial status and trustworthiness of a company before signing a contract and entering a working relationship with them.

In today's financial climate it is very important to know who you are dealing with. Many people see checking as an added expense, to this we can only say "prevention is better than cure". As an innovative provider in credit information services, abilita offers you a quick and cost-effective online access to a huge amount of up-to-date and reliable information on companies and businesses around the globe.

The value of information depends most on the quantity and up-to-datedness of the data reported. To always give you a well-founded base the abilita credit information services are based upon the world wide largest and leading data bases with economical information to over 100 million companies world wide and 4 million companies in Germany.

Various levels of reports are available online depending on the requirements of the customer. Business Credit reports from abilita provide access to such information as credit ratings, payment activities and in depth financial and corporate information.

Quick, easy and comprehensive, abilita is the one-stop credit information solution to help you make better, more reliable decisions. We are dedicated to bringing your organisation the most up to date and relevant information on your customers, whether you are in the B2B or B2C world.
